### **Speech By Dr. Nandita Pathak, Chief Guest 69<sup>th</sup> Annual Convocation held on 18-01-2020**

I am indeed happy to be here at SNDT university, Mumbai witnessing your celebrations of another academic achievement. At the outset, let me congratulate all the young ladies graduating today. My best compliments to their Grand parents, Parents and Teachers on this momentous occasion. It is a proud privilege to be amongst young minds in the country. Convocation marks the end of a course and yet is a significant new beginning in your life. I hope the ladies would commit themselves to innovations and practices to achieve Sustainable Development Goals.

On this auspicious occasion we solemnly pay our tribute to Bharat Ratna Dr Dhondo Keshav Karve who founded Shreemati Nathibai Damodar Thackersey Women's University for women which is the first women's university of India and Southeast Asia. We also bow our head in the veneration for all those 5 women who became graduate first of all in 1921 braving many odd & conflicting situations, they are our inspiration. The propounder of Integral humanism Pt. Deendayal Upadhyay ji said that 'Developing a civil society is impossible without educating mothers'. Education is an instrument of social transformation.

The women in this age have entered into space exploration shoulder to shoulder with men. They are rapidly and boldly creating a place for themselves and making forays in all walks of life leaving no field untouched. But there is also emerging a disturbing trend. On the one hand women become literate and educated, they have not only become conscious of their rights but are asserting for their rights too. On the other hand individualistic tendencies are arising amongst them which need to be curbed. Woman is the linchpin of the family and if she starts to think only for herself, then family runs the risk of breaking, society will disintegrate and disputes will arise that will hamper the progress of the country. Therefore, woman may become literate, educated, conscious, self-dependant and self reliant but, in her family life interdependence is as much a necessity as self reliance is in her individual life. She should take care of her family and society besides her own which shall ultimately make her own family happy, cohesive and also ensure that the societal life becomes peaceful and pleasant. There are so many examples where women made great contribution for the progress and prosperity of the Society and the nation while discharging both these duties. Our new generation must take a lesson from the example set by such women and make their own life meaningful. In this modern age women endowed with skills must pass on their knowledge or crafts to the women of poor and down-trodden families with dedicated zeal to ensure their greater role in nation building.

So when an educated, intelligent, self-reliant, courageous and cultured woman of today engages in replicating herself and her skills, only then will progress of a nation be possible and this will also mitigate all the disputes hampering nation's progress and create a 'dispute-free' Society. So the need of the hour is Bharat Ratna Hon'ble Nanaji Deshmukh ji said that "we do not live for ourselves we live for our kith and kin. Our kith and kin are those who are neglected and down trodden."

I would like to congratulate the Hon'ble Chancellor, respected Vice- Chancellor, faculty members and non teaching staff of SNDT Women's University on their achievements and wish

the University continued success in grooming young women to emerge as leaders in their chosen walks of life. Dear girls please remember that there is no short cut to success, with hard work, determination, sincerity, dedication, and by following ethical and moral values, you can realize your goals. I urge each one of you graduating (awarding) today to always remember that your mission in life should be wipe every tear from every eye as exhorted by the father of Nation Mahatma Gandhi ji. "Utilize whatever time you have"

Sudha Murthy ji said, ' Nature is very intelligent whether you are good looking or not, whether you are intelligent or not, whether you are rich or not you only have 24 hours in a day. Whatever your set of problems or difficulties or solutions, you have to accommodate all of them in 24 hours. "

Let me conclude quoting Mahamana Pandit Madan Mohan Malviya ji who, in a convocation address to the Banaras Hindu University said, continue your studies throughout your life. Be just and fear none. Fear only to do that which is unjust and ignoble. Stand up for right. Love to serve your fellow men. Love the mother land. Do good wherever you get a chance for it . Love to give whatever you can spare. Women should be happy with great qualities through education, become self-reliant in personal life and mutual in social life, be blessed with life-long health and work for family, society and nation to realize the vision of universal harmony.

भारत माता की जय।

वंदे मातरम।
