About Workshop

Human Resource Development is an integral part of capacity building along with development and regeneration of the individual competencies. It is a combined process of knowledge, skills and ability, (KSA) which accumulate through training, education and life experience HRD is understood to involve : Change Management , enhanced quality of operations, Improved task performance, encouraging creativity and innovation to withstand in the ever changing and challenging global competition. Effective Educational Institutions must recognize excellent academic qualities of academicians and groom them as per need of hours in this global competitive era. Academicians need different skills, abilities and talents to excel in the diverse and dynamic education system. No matter how much knowledge teachers have, they need time, practice, guidance and training to process the unique information to disseminate their reflective knowledge to the younger generation. Though teachers are natural leaders, yet they require support to shine further.

The overall objective is to prepare academicians, to become capable leaders in order to face current and future challenges of the educational sectors successfully. It is the responsibilities of the academic institutes to upgrade the existing knowledge of the faculties, also add current required information, which are essential for the nation building. The present program of capacity building will help participants in realizing and analyzing their full potential to contribute and achieve the best result in the growth of education Institutions.
